Review Report

To the Board of Directors of the EFG – Hermes Holding Company

Introduction

We have performed a limited review for the accompanying separate statement of financial position of EFG – Hermes Holding Company (Egyptian Joint Stock Company) as of 31 March, 2013 and the related separate statements of income, changes in equity and cash flows for the three months then ended, and a summary of significant accounting policies and other explanatory notes. The company's management is responsible for the preparation and fair presentation of these interim financial statements in accordance with Egyptian Accounting Standards. Our responsibility is to express a conclusion on these interim financial statements based on our limited review.

Scope of Limited Review

We conducted our limited review in accordance with Egyptian Standard on Review Engagements 2410, "Limited Review of Interim Financial Statements Performed by the Independent Auditor of the Entity." A limited review of interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters in the Company, and applying analytical and other limited review procedures. A limited review is substantially less in scope than an audit conducted in accordance with Egyptian Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion on these interim financial statements.

Conclusion

Based on our limited review, nothing has come to our attention that causes us to believe that the accompanying interim separate financial statements do not present fairly, in all material respects, the financial position of the Company as at 31 March, 2013 and of its financial performance and its cash flows for the three months then ended in accordance with Egyptian Accounting Standards.

Explanatory Note

Without qualifying our opinion:

- The Company's General Ordinary Assembly meeting has not been held yet to approve the financial statements for the year ended 31 December, 2012.
- We draw attention to note No. (22) to the financial statements. On December 6, 2012, several resolutions of laws on amending certain provisions of the Tax Laws has been issued and published in the Official Gazette on that date. Later statements have been issued by certain officials in respect of freezing the enforcement of such resolutions. Due to the lack of emphatic information to the management on the enforcement date of such resolutions or the date of cancellation, the management hereby did not affect the tax bases, the related assets and liabilities, the results of operations during the period. These amounts and results may differ when reliable information become available on the enforcement of such resolutions and the effective date therefore.

2-3 Functional and presentation currency

These financial statements are presented in Egyptian pounds (LE), which is the Company's functional currency and all the financial data presented are in Egyptian pounds (LE).

2-4 Use of estimates and judgments

The preparation of financial statements in conformity with Egyptian Accounting Standards requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised and in any future periods affected.

In particular, information about significant areas of estimation uncertainty and critical judgments in applying accounting policies that have the most significant effect on the amount recognized in the financial statements are described in the following notes:

- Note (13) Investments in subsidiaries.
- Note (21) Recognition of deferred tax assets and liabilities.

2-5 Consolidated financial statements

The company has subsidiaries and according to the Egyptian Accounting Standard No. 17 "Consolidated Financial Statements" and the article No. 188 of the executive regulation of law No. 159-1981, the Company is required to prepare consolidated financial statements which present fairly the financial position, the result of operations and cash flows for the group as a whole.

3- Significant accounting policies applied

The accounting policies set out below have been applied consistently with those applied in the previous period presented in these financial statements certain reclassifications have been made to some comparative figures in order to conform with current period presentation. (note 26).

3-1 Translation of the foreign currencies transactions

The company maintains its accounts in Egyptian Pound. Transactions denominated in foreign currencies are recorded at the prevailing exchange rate at the date of transactions. Monetary assets and liabilities denominated in foreign currencies at the balance sheet date are translated at the prevailing exchange rates at that date. The foreign currencies exchange differences arising on the settlement of transactions and the translation at the balance sheet date are recognized in the income statement.

3-2 Fixed assets depreciation

Fixed assets are stated at historical cost and presented in the balance sheet net of accumulated depreciation and impairment (Note3-6). Depreciation is charged to the income statement over the estimated useful-life of each asset using the straight-line method. The following are the estimated useful lives, for each class of assets, for depreciation calculation purposes:

| | Estimated useful life |
|---|-----------------------|
| - Buildings | 33.3 Years |
| - Furniture, office and electrical appliances | 4 Years |
| - Computer equipment | 4 Years |
| - Vehicles & Transportation means | 5 Years |
| - Fixtures | 2 Years |

Expenditure incurred to replace a component of an item of property and equipment that is accounted for separately, including major inspection and overhaul expenditure, is capitalized. Other subsequent expenditure is capitalized only when it increases the future economic benefits embodied in the property and equipment. All other expenditure is recognized in the income statement as an expense as incurred.

3-3 Projects under construction

Projects under construction are recognized initially at cost. Cost includes all expenditures directly attributable to bringing the asset to a working condition for its intended use. Property and equipment under construction are transferred to property and equipment caption when they are completed and are ready for their intended use.

3-4 Intangible assets

Intangible assets are stated at cost less accumulated amortization and impairment losses (note 3-6). Amortization is recognized in the income statement on a straight – line basis over the estimated useful lives of intangible assets.

3-5 Investments

3-5-1 Investments at fair value through profit and loss

An instrument is classified as at fair value through income statement if it is held for trading or is designated as such upon initial recognition. Financial instruments are designated at fair value through income statement if the Company manages such investments and makes purchase and sale decisions based on their fair value. Upon initial recognition, attributable transaction costs are recognized in income statement when incurred. Financial instruments at fair value through income statement are measured at fair value, and changes therein are recognized in income statement.

3-5-2 Available-for-sale financial assets

Available-for-sale financial assets are valued at fair value, with any resultant gain or loss being recognized in equity, except for impairment losses which is recognized in the income statement. When these investments are derecognized, the cumulative gain or loss previously recognized directly in equity is recognized in the income statement. The fair value of investments available for sale, identifies based on quoted price of the exchange market at the balance sheet date, investments that are not quoted, and whose fair value can not be measured reliably are valued by an accepted valuation techniques including the use of new objective techniques or discounted cash flow analysis or option pricing models or other valuation techniques – if the company can not estimate the fair value, it can be stated at cost less impairment loss.

3-5-3 Investments in subsidiaries & associates

Investments in subsidiaries and associates are valued at cost, the book value is amended by any impairment concerning the value of these investments (note 3-6). The impairment value is to be charged to the income statement for every investment individually.

3-5-4 Investments property

Investments property is recorded at fair value, any gain or loss arising from a change in the fair value of investment property shall be recognized in profit or loss for the period in which it arises.

2

×.

3

Ì

2

a)

]

g

3-6 Impairment

3-6-1 Financial assets

A financial asset is considered to be impaired if objective evidence indicates that one or more events have had a negative effect on the estimated future cash flows of that asset.

An impairment loss in respect of a financial asset measured at amortized cost is calculated as the difference between its carrying amount, and the present value of the estimated future cash flows discounted at the original effective interest rate. An impairment loss in respect of an available-for-sale financial asset is calculated by reference to its current fair value.

Individually significant financial assets are tested for impairment on an individual basis. The remaining financial assets are assessed collectively in groups that share similar credit risk characteristics.

All impairment losses are recognized in profit or loss. Any cumulative loss in respect of an available-for-sale financial asset recognized previously in equity is transferred profit or loss.

An impairment loss is reversed if the reversal can be related objectively to an event occurring after the impairment loss was recognized. For financial assets measured at amortized cost and available-for-sale financial assets that are debt securities, the reversal is recognized in profit or loss. For available-for-sale financial assets that are equity securities, the reversal is recognized directly in equity.

3-6-2 Non-financial assets

The carrying amounts of the Group's non-financial assets, other than investment property, inventories and deferred tax assets, are reviewed at each reporting date to determine whether there is any indication of impairment.

An impairment loss is recognized if the carrying amount of an asset or its cash-generating unit exceeds its recoverable amount. A cashgenerating unit is the smallest identifiable asset group that generates cash flows that largely are independent from other assets and groups. Impairment losses are recognized in profit or loss.

The recoverable amount of an asset or cash-generating unit is the greater of its value in use and its fair value less costs to sell.

Impairment losses recognized in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a

ß

ň,

Ŋ

g

change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

3-7 Cash and cash equivalents

For the purpose of preparing the cash flow statement, cash and cash equivalent includes the balances, which maturity not exceeding three months from the date of acquisition and the balances included cash on hand, current accounts and time deposits with banks.

3-8 Interest-bearing borrowings

Interest-bearing borrowings are recognized initially at fair value less attributable transaction costs. Subsequent to initial recognition, Interestbearing borrowings are stated at amortized cost with any difference between cost and redemption value being recognized in the income statement over the period of the borrowings on an effective interest basis.

3-9 Provisions

Provisions are recognized when the Company has a legal or constructive obligation as a result of a past event and it's probable that a flow of economic benefits will be required to settle the obligation. If the effect is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessment of the time value of money and, where appropriate, the risks specific to the liability. Provisions are reviewed at the balance sheet date and amended (when necessary) to represent the best current estimate.

3-10 Legal reserve

The company's Statutes provides for deduction of a sum equal to 5% of the annual net profit for formation of the legal reserve. Such deduction will be ceased when the total reserve reaches an amount equal to half of the company's issued capital and when the reserve falls below this limit, it shall be necessary to resume the deduction.

r,

1

9

g

ų

ij

IJ

P

3-11 Issued capital

When share capital recognized as equity is repurchased, the amount of the consideration paid, including directly attributable costs, is recognized as a change in equity.

Repurchased shares are classified as treasury stock and presented as a deduction from total equity.

3-12 Derivative financial instruments

The company uses derivative financial instruments to hedge its exposure to foreign exchange and interest rate risks arising from operational, financial and investment activities. In accordance with its treasury policy, the Group does not hold or issue derivative financial instruments for trading purposes. However, derivatives that do not qualify for hedge accounting are accounted for as trading instruments. Derivatives are recognized initially at fair value; attributable transaction costs are recognized in profit or loss when incurred. Subsequent to initial recognition, derivatives are measured at fair value, and changes therein are accounted for as described below.

Cash flow hedges

Changes in the fair value of the derivative hedging instrument designated as a cash flow hedge are recognized directly in equity to the extent that the hedge is effective. To the extent that the hedge is ineffective, changes in fair value are recognized in profit or loss.

If the hedging instrument no longer meets the criteria for hedge accounting, expires or is sold, terminated or exercised, then hedge accounting is discontinued prospectively. The cumulative gain or loss previously recognized in equity remains there until the forecast transaction occurs. When the hedged item is a non-financial asset, the amount recognized in equity is transferred to the carrying amount of the asset when it is recognized. In other cases the amount recognized in equity is transferred to profit or loss in the same period that the hedged item affects profit or loss.

Fair value hedges

Changes in the fair value of a derivative hedging instrument designated as a fair value hedge are recognized in profit or loss. The hedged item also is stated at fair value in respect of the risk being hedged, with any gain or loss being recognized in profit or loss.

EFG - Hermes Holding Company Notes to the separate financial statements for the period ended 31/3/2013 (Cont'd)

3-13 Revenue recognition

3-13-1 Gains (losses) on sale of investments

Gain (loss) resulted from sale of investments are recognized on transaction date and measured by the difference between cost and selling price less selling commission and expenses.

3-13-2 Dividend income

Dividend income is recognized when declared.

3-13-3 Custody fees

Custody fees are recognized when provide service and issue invoice.

3-13-4 Interest income

Interest income is recognized on time proportion basis to take into account effective yield on the asset.

3-14 Expenses

3-14-1 Borrowing costs

Borrowing costs are recognized as expenses in the income statement when incurred on an effective interest basis.

3-14-2 Employees' pension

The Company contributes to the government social insurance system for the benefit of its personnel in accordance with the social insurance law. Under this law, the employees and the employers contribute into the system on a fixed percentage-of-salaries basis. The Company's liability is confined to the amount of its contribution. Contributions are charged to income statement using the accrual basis of accounting.

3-14-3 Taxation

Income tax on the profit or loss for the year comprises current and deferred tax. Income tax is recognized in the income statement except to the extent that it relates to items recognized directly in equity, in which case it is recognized in equity.

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantially enacted at the balance sheet date, and any adjustment to tax payable in respect of previous years.

Deferred tax is provided using the balance sheet liability method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the

amounts used for taxation purposes. The amount of deferred tax provided is based on the expected manner of realization or settlement of the carrying amount of assets and liabilities, using tax rates enacted or substantively enacted at the balance sheet date. A deferred tax asset is recognized only to the extent that it is probable that future taxable profits will be available against which the asset can be utilized. Deferred tax assets are reduced to the

extent that it is no longer probable that the related tax benefit will be realized.

3-15 Earnings per share

The Company presents basic earnings per share (EPS) data for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the period.

3-16 Profit sharing to employees

The Company pays 10% of its cash dividends as profit sharing to its employees provided that it will not exceed total employees annual salaries. Profit sharing is recognized as a dividend distribution through equity and as a liability when approved by the Company's shareholders.
