Review Report

To the Board of Directors of EFG - Hermes Holding Company

Introduction

We have performed a limited review for the accompanying separate statement of financial position of EFG – Hermes Holding Company (Egyptian Joint Stock Company) as of 30 September 2016 and the related separate statements of income, comprehensive income, changes in equity and cash flows for the nine months then ended, and a summary of significant accounting policies and other explanatory notes. The company's management is responsible for the preparation and fair presentation of these interim financial statements in accordance with Egyptian Accounting Standards. Our responsibility is to express a conclusion on these interim financial statements based on our limited review.

Scope of Limited Review

We conducted our limited review in accordance with Egyptian Standard on Review Engagements 2410, "Limited Review of Interim Financial Statements Performed by the Independent Auditor of the Entity." A limited review of interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters in the Company, and applying analytical and other limited review procedures. A limited review is substantially less in scope than an audit conducted in accordance with Egyptian Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion on these interim financial statements.

Conclusion

Based on our limited review, nothing has come to our attention that causes us to believe that the accompanying interim separate financial statements do not present fairly, in all material respects, the financial position of the Company as at 30 September 2016 and of its financial performance and its cash flows for the nine months then ended in accordance with Egyptian Accounting Standards.

Non cash transactions:

An amount of EGP 2 704 601 245 has been eliminated from due from subsidiaries and proceeds from redemption of investments in subsidiaries, represents the decrease of company investment in EFG-Hermes Global CB Holding Limited.

The accompanying notes and accounting policies from page (6) to page (36) are an integral part of these financial statements and are to be read therewith.

EFG- Hermes Holding Company (Egyptian Joint Stock Company) Notes to the separate financial statements for the period ended September 30, 2016 (In the notes all amounts are shown in EGP unless otherwise stated)

1- Description of business

1-1 Legal status

EFG-Hermes Holding S.A.E "the company" is an Egyptian Joint Stock Company subject to the provisions of the Capital Market Law No.95 of 1992 and its executive regulations. The Company's registered office is located in Smart Village building No. B129, phase 3, KM 28 Cairo Alexandria Desert Road, 6 October, Egypt.

1-2 Purpose of the company

The Company is a universal bank with a lead position in the Arab world in investment banking, securities brokerage, asset management, private equity and research. The purpose of the Company also includes the participation in the establishment of companies which issue securities or in increasing their share capitals, custody activities and margin trading.

2- Basis of preparation

2-1 Statement of compliance

- These financial statements have been prepared in accordance with the Egyptian Accounting Standards and relevant Egyptian laws and regulations.
- The financial statements were authorized for issue in accordance with a resolution of the Board of Directors on 14 November, 2016.

2-2 Functional and presentation currency

These financial statements are presented in Egyptian Pounds (EGP), which is the Company's functional currency and all the financial data presented are in Egyptian Pounds (EGP).

2-3 Use of estimates and judgments

In preparing these consolidated financial statements, management has made judgements, estimates and assumptions that affect the application of the Group's accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to estimates are recognized prospectively.

- Estimates and assumptions about them are re-viewed on regular basis.
- The change in accounting estimates is recognized in the period where the estimate is changed whether the change affects only that period, or in the period of change and the future periods if the change affects them both.

2-3-1 Fair value measurement

- The fair value of financial instruments are determined based on the market value of the financial instrument or similar financial instruments at the date of the financial statements without deducting any estimated future selling costs.
- The value of financial assets are determined by the values of the current purchase prices for those assets, while the value of financial liabilities is determined by the current prices that can be settled by those liabilities.
- In the absence of an active market to determine the fair value of financial instruments, the fair value is estimated using various valuation techniques, taking into consideration the prices of the transactions occurred recently, and guided by the current fair value of other similar tools substantially discounted cash flow method or any other evaluation method to get resulting values that can rely on.
- When using the discounted cash flow method as a way to evaluate, the future cash flows are estimated based on the best estimates of management. And the discount rate used is determined in the light of the prevailing market price at the date of the financial statements that are similar in nature and conditions.

2-4 Consolidated financial statements

The Company has subsidiaries and according to the Egyptian Accounting Standard No. 42 "consolidated financial statements" and the article No. 188 of the executive regulation of law No. 159-1981, the Company is required to prepare consolidated financial statements which present fairly the financial position, the result of operations and cash flows for the Group as a whole.

25- Tax status

- As to Income Tax, the years till 31/12/2010 the competent Tax Inspectorate inspected the parent company's books and all the disputed points have been settled with the Internal Committee and as to years 2011/2012 have been inspected and the company was notified by form no. (19) which was objected thereon on the due date and the settlement procedures are currently taking place and as to year 2013 the competent Tax Inspectorate inspected the parent company's books and the company was notified by form no. (19) which was objected thereon on the due date and the settlement procedures are currently taking place and as to year 2013 the company was notified by form no. (19) which was objected thereon on the due date and the settlement procedures are currently taking place and as to years 2014/2015, it has not been inspected yet.
- As to Salaries Tax, the parent company's books had been examined till 2008 and all the disputed points have been settled with the Internal Committee and the due amount has been paid and as to years 2009/2012 company's books had been examined and the settlement procedures are currently taking place, and as to years 2013 / 2015, the parent company's books have not been inspected yet.
- As to Stamp Tax, the parent company's books had been examined from 1998 till 31/7/2006 and paid the due tax according to the resolution of appeal committee which was objected thereon in the court, and the period from 1/8/2006 till 31/12/2013 has been inspected and the company was notified by form no. (19) which was objected thereon on the due date and the settlement procedures are currently taking place and as to years 2014/2015, it has not been inspected yet.

26- Related party transactions

The related parties transactions are represented in the following:

- Other income item presented in the income statement includes an amount of EGP 9 708 864 which represents the value of rental spaces for some affiliated companies in addition to EGP 7 487 525 which represents the value of redemption of some expenses of the new headquarter that were allocated to the subsidiaries.
- Interest income item presented in the income statement includes an amount of EGP 25 036 111 and EGP 4 165 277 which represent the interest on subordinated loan that granted from the Company to Hermes Securities Brokerage (a subsidiary – 97.58%) and Tanmeyah Micro Enterprise Services S.A.E (a subsidiary – 94%) respectively (Note no. 11).
- Loans to subsidiaries item as at September 30, 2016 is presented in the statement of financial position represents in the loan granted to Hermes Securities Brokerage (a subsidiary 97.58%) with an amount of EGP 200 million & EFG- Hermes Jordan (a subsidiary 100 %) with an amount 500 000 USD (equivalent to 4 432 500 EGP) and loan granted to Tanmeyah Micro Enterprise Services S.A.E (a subsidiary 94%) with an amount of EGP 50 million (Note no. 11).
- Creditors and other credit balances item includes an amount of EGP 5 188 950 represents the unearned revenues from the affiliated companies for rental of Group's headquarter owned by the Company (Note no. 9).

27- Financial instruments and management of related risks:

The Company's financial instruments are represented in the financial assets and liabilities. Financial assets include cash balances with banks, investments and debtors while financial liabilities include loans and creditors. Notes to financial statements includes significant accounting policies applied regarding basis of recognition and measurement of the important financial instruments and related revenues and expenses by the company to minimize the consequences of such risks.

27/1 Market risk

A. Foreign currencies risk

- The foreign currencies exchange risk represents the risk of fluctuation in exchange rates, which in turn affects the Company's cash inflows and outflows as well as the value of its assets and liabilities in foreign currencies.
- As at the financial position date the Company has assets and liabilities in foreign currencies equivalent to EGP 1 283 625 660 and EGP 536 209 297 respectively. The Company's net exposures in foreign currencies as at the financial position date are as follows:

Surplus

USD	566 753 973
EURO	175 029 106
AED	3 772 101
GBP	1 127 575
CHF	733 608

The Company has used the prevailing exchange rates to revaluate assets and liabilities at financial position date as disclosed in note 29-1, "foreign currencies transactions".

B. Interest rate risk

The cash flows of the Company affected by the changes in market rates of interest. To mitigate interest rate risk the Company maintains banks deposits for short-term periods renewed monthly, and are negotiated in the re-pricing date comparing to interest rates announced by the central bank or LIBOR.

C. Price risk

The Company is exposed to market price risk for equity instruments, According to the Company's investment policy, the following procedures are undertaken to reduce the effect of this risk.

- Performing the necessary studies before investment decision in order to verify that investment is made in potential securities.
- Diversification of investments in different sectors and industries.
- Performing continuous studies required to follow up the Company's investments and their development.

27/2 Credit risk

Financial institutions that the Group deals with are only those enjoying high credit quality. The Group has policies that limit the amount of credit exposure to any one financial institution.

27/3 Liquidity risk

Liquidity risk is represented in the factors, which may affect the Company's ability to pay part of or full amount of its liabilities. According to the Company's policy, sufficient cash balances are retained to meet the Company's current liabilities which minimize the liquidity risk.

27/4 Capital risk

The goal of the Company's management of capital management is to maintain the Company's ability to continue to achieve returns for shareholders and benefits for other parties that use financial statements. The management company also aims to provide and maintain the best capital structure which would lead to lower capital costs.

27/5 Financial instruments' fair value

The financial instruments' fair value does not substantially deviated from its book value at the financial position date.

27/6 Derivative financial instruments and hedge accounting

Derivatives are initially recognized at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at their fair value according to the valuation basis applied, in accounting policies to derivative financial instrument.

28- Comparative figures

Certain reclassification and adjustments have been made to some comparative figures in order to conform with the current period presentation. These adjustments are attributable to the following:

	(As reported) For the year ended 31/12/2015	Adjustments	(Amended) For the year ended 31/12/2015
Due from subsidiaries and associates	1 029 244 735	(2 019 212)	1 027 225 523
Due to subsidiaries and associates	388 930 554	(2 019 212)	386 911 342

29- Significant accounting policies applied

The accounting policies set out below have been applied consistently with those applied in the previous period presented in these financial statements certain reclassifications have been made to some comparative figures in order to conform with current period presentation. (note 28).

29-1 Translation of the foreign currencies transactions

Transactions in foreign currencies are translated into the respective functional currencies of Group companies at the exchange rates at the dates of the transactions.

Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the exchange rate at the reporting date. Non-monetary assets and liabilities that are measured at fair value in a foreign currency are translated into the functional currency at the exchange rate when the fair value was determined. Non-monetary items that are measured based on historical cost in a foreign currency are translated at the exchange rate at the date of the transaction.

29-2 Property, plant and equipment

29-2-1 Recognition and measurement

Items of property, plant and equipment are measured at cost less accumulated depreciation and any accumulated impairment losses. The cost of certain items of property, plant and equipment. If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment. Any gain or loss on disposal of an item of property, plant and equipment is recognized in profit or loss.

29-2-2 Subsequent expenditure

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the Group.

29-2-3 Depreciation

Depreciation is calculated to write off the cost of items of property, plant and equipment less their estimated residual values using the straight-line method over their estimated useful lives, and is generally recognized in profit or loss. Leased assets are depreciated over the shorter of the lease term and their useful lives unless it is reasonably certain that the Group will obtain ownership by the end of the lease term. Land is not depreciated. The estimated useful lives of property, plant and equipment for current and comparative periods are as follows:

	Estimated useful life
- Buildings	33.3 years
- Furniture, office and electrical appliances	4 years
- Computer equipment	4 years
- Vehicles & transportation means	5 years
- Fixtures	2 years

Depreciation methods, useful lives and residual values are reviewed at each reporting date and adjusted if appropriate.

29-2-4 Reclassification to investment property

When the use of a property changes from owner-occupied to investment property.

29-2-5 Projects under construction

Projects under construction are recognized initially at cost, the book value is amended by any impairment concerning the value of these projects cost includes all expenditures directly attributable to bringing the asset to a working condition for its intended use. Property and equipment under construction are transferred to property and equipment caption when they are completed and are ready for their intended use.

29-3 Treasury bills

Treasury bills are recorded at nominal value and the unearned income is recorded under the item of "creditors and other credit balances". Treasury bills are presented on the financial position net of the unearned income.

29-4 Investments

29-4-1 Investments at fair value through profit and loss

An instrument is classified as at fair value through income statement if it is held for trading or is designated as such upon initial recognition. Financial instruments are designated at fair value through income statement if the Company manages such investments and makes purchase and sale decisions based on their fair value. Upon initial recognition, attributable transaction costs are recognized in income statement when incurred. Financial instruments at fair value through income statement are measured at fair value, and changes therein are recognized in income statement.

29-4-2 Available-for-sale financial investments

Available-for-sale financial assets are valued at fair value, with any resultant gain or loss being recognized in equity, except for impairment losses which is recognized in the income statement. When these investments are derecognized, the cumulative gain or loss previously recognized directly in equity is recognized in the income statement. The fair value of investments available-for-sale, is based on quoted price of the exchange market at the financial position date, investments that are not quoted, and whose fair value cannot be measured reliably are valued by accepted valuation techniques including the use of new objective techniques or discounted cash flow analysis or option pricing models or other valuation techniques – if the Company cannot estimate the fair value, it can be stated at cost less impairment loss.

29-4-3 Investments in subsidiaries & associates

Investments in subsidiaries and associates are valued at cost, the book value is amended by any impairment concerning the value of these investments (note 29-7). The impairment value is to be charged to the income statement for every investment individually.

29-4-4 Investment property

Investment property is measured at cost on initial recognition. Subsequent to initial recognition investment property is measured at cost less accumulated depreciation and impairment loss, if any. Investment property is depreciated on a straight line basis over is useful life. The estimated useful life of investment property is 33 years.

29-5 Assets held for sale

Non-current assets, or disposal groups comprising assets and liabilities, are classified as held-for-sale if it is highly probable that they will be recovered primarily through sale rather than through continuing use.

Any impairment loss on a disposal group is allocated first to goodwill, and then to the remaining assets and liabilities on a pro rata basis, except that no loss is allocated to inventories, financial assets, deferred tax assets, employee benefit assets, investment property or biological assets, which continue to be measured in accordance with the Group's other accounting policies. Impairment losses on initial classification as held-for-sale or held-for distribution and subsequent gains and losses on remeasurement are recognised in profit or loss. Once classified as held-for-sale, intangible assets and property, plant and equipment are no longer amortised or depreciated, and any equity-accounted investee is no longer equity accounted.

29-6 Financial instruments

The Group classifies non-derivative financial assets into the following categories: financial assets at fair value through profit or loss, held-to-maturity financial assets, loans and receivables and available-for-sale financial assets. The Group classifies non-derivative financial liabilities into the following categories: financial liabilities at fair value through profit or loss and other financial liabilities category.

29-6-1 Non-derivative financial assets and financial liabilities – Recognition and Derecognition

The Group initially recognises loans and receivables and debt securities issued on the date when they are originated. All other financial assets and financial liabilities are initially recognised on the trade date when the entity becomes a party to the contractual provisions of the instrument.

The Group derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred, or it neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control over the transferred asset. Any interest in such derecognised financial assets that is created or retained by the Group is recognised as a separate asset or liability.

The Group derecognises a financial liability when its contractual obligations are discharged or cancelled, or expire.

Financial assets and financial liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Group currently has a legally enforceable right to offset the amounts and intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

29-6-2Non-derivative financial assets – Measurement29-6-2-1Financial assets at fair value through profit or loss

A financial asset is classified as at fair value through profit or loss if it is classified as held for-trading or is designated as such on initial recognition. Directly attributable transaction costs are recognised in profit or loss as incurred. Financial assets at fair value through profit or loss are measured at fair value and changes therein, including any interest or dividend income, are recognised in profit or loss.

29-6-2-2 Held-to-maturity financial assets

These assets are initially measured at fair value plus any directly attributable transaction costs. Subsequent to initial recognition, they are measured at amortised cost using the effective interest method.

29-6-2-3 Loans and receivables

These assets are initially measured at fair value plus any directly attributable transaction costs. Subsequent to initial recognition, they are measured at amortised cost using the effective interest method.

29-6-2-4 Available-for-sale financial assets

These assets are initially measured at fair value plus any directly attributable transaction costs. Subsequent to initial recognition, they are measured at fair value and changes therein, other than impairment losses and foreign currency differences on debt instruments are recognised in OCI and accumulated in the fair value reserve. When these assets are derecognised, the gain or loss accumulated in equity is reclassified to profit or loss.

29-6-3 Non-derivative financial liabilities – Measurement

A financial liability is classified as at fair value through profit or loss if it is classified as held-for-trading or is designated as such on initial recognition. Directly attributable transaction costs are recognized in profit or loss as incurred. Financial liabilities at fair value through profit or loss are measured at fair value and changes therein, including any interest expense, are recognized in profit or loss.

Other non-derivative financial liabilities are initially measured at fair value less any directly attributable transaction costs. Subsequent to initial recognition, these liabilities are measured at amortised cost using the effective interest method.

29-6-4 Derivative financial instruments and hedge accounting

The Group holds derivative financial instruments to hedge its foreign currency and interest rate risk exposures. Embedded derivatives are separated from the host contract and accounted for separately if certain criteria are met.

Derivatives are initially measured at fair value; any directly attributable transaction costs are recognized in profit or loss as incurred. Subsequent to initial recognition, derivatives are measured at fair value, and changes therein are generally recognized in profit or loss.

29-6-4-1 Cash flow hedges

When a derivative is designated as a cash flow hedging instrument, the effective portion of changes in the fair value of the derivative is recognized in OCI and accumulated in the hedging reserve. Any ineffective portion of changes in the fair value of the derivative is recognized immediately in profit or loss.

The amount accumulated in equity is retained in OCI and reclassified to profit or loss in the same period or periods during which the hedged forecast cash flows affects profit or loss or the hedged item affects profit or loss.

If the forecast transaction is no longer expected to occur, the hedge no longer meets the criteria for hedge accounting, the hedging instrument expires or is sold, terminated or exercised, or the designation is revoked, then hedge accounting is discontinued prospectively. If the forecast transaction is no longer expected to occur, then the amount accumulated in equity is reclassified to profit or loss.

29-7 Impairment

29-7-1 Non-derivative financial assets

Financial assets not classified as at fair value through profit or loss, including an interest in an equity accounted investee, are assessed at each reporting date to determine whether there is objective evidence of impairment.

Objective evidence that financial assets are impaired includes:

- Default or delinquency by a debtor;
- Restructuring of an amount due to the Group on terms that the Group would not consider otherwise;
- Indications that a debtor or issuer will enter bankruptcy;
- Adverse changes in the payment status of borrowers or issuers;

- The disappearance of an active market for a security because of financial difficulties.
- Observable data indicating that there is a measurable decrease in the expected cash flows from a group of financial assets.
- For an investment in an equity security, objective evidence of impairment includes a significant or prolonged decline in its fair value below its cost. The Group considers a decline of 20% to be significant and a period of nine months to be prolonged.

Financial assets measured at amortized cost

The Group considers evidence of impairment for these assets at both an individual asset and a collective level. All individually significant assets are individually assessed for impairment. Those found not to be impaired are then collectively assessed for any impairment that has been incurred but not yet individually identified. Assets that are not individually significant are collectively assessed for impairment. Collective assessment is carried out by grouping together assets with similar risk characteristics.

In assessing collective impairment, the Group uses historical information on the timing of recoveries and the amount of loss incurred, and makes an adjustment if current economic and credit conditions are such that the actual losses are likely to be greater or lesser than suggested by historical trends.

An impairment loss is calculated as the difference between an asset's carrying amount and the present value of the estimated future cash flows discounted at the asset's original effective interest rate. Losses are recognized in profit or loss and reflected in an allowance account. When the Group considers that there are no realistic prospects of recovery of the asset, the relevant amounts are written off. If the amount of impairment loss subsequently decreases and the decrease can be related objectively to an event occurring after the impairment was recognized, then the previously recognized impairment loss is reversed through profit or loss.

Available-for-sale financial assets

Impairment losses on available-for-sale financial assets are recognized by reclassifying the losses accumulated in the fair value reserve to profit or loss. The amount reclassified is the difference between the acquisition cost (net of any principal repayment and amortization) and the current fair value, less any impairment loss previously recognized in profit or loss. If the fair value of an impaired available-for-sale debt security subsequently increases and the increase can be related objectively to an event occurring after the impairment loss was recognized, then the impairment loss is reversed through profit or loss. Impairment losses recognized in profit or loss for an investment in an equity instrument classified as available-for-sale are not reversed through profit or loss.

Equity-accounted investees

An impairment loss in respect of an equity-accounted investee is measured by comparing the recoverable amount of the investment with its carrying amount. An impairment loss is recognized in profit or loss, and is reversed if there has been an estimates used to determine the recoverable amount.

29-7-2 Non-financial assets

The carrying amounts of the Group's non-financial assets, other than investment property, inventories and deferred tax assets, are reviewed at each reporting date to determine whether there is any indication of impairment.

An impairment loss is recognized if the carrying amount of an asset or its cash-generating unit exceeds its recoverable amount. A cashgenerating unit is the smallest identifiable asset group that generates cash flows that largely are independent from other assets and groups. Impairment losses are recognized in income statement.

The recoverable amount of an asset or cash-generating unit is the greater of its value in use and its fair value less costs to sell.

Impairment losses recognized in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

29-8 Cash and cash equivalents

For the purpose of preparing the statement of cash flows, cash and cash equivalents includes the balances, whose maturity do not exceed three months from the date of acquisition and the balances included cash on hand, current accounts, time deposits with banks & treasury bills.

29-9 Interest-bearing borrowings

Interest-bearing borrowings are recognized initially at fair value less attributable transaction costs. Subsequent to initial recognition, interest-bearing borrowings are stated at amortized cost with any difference between cost and redemption value being recognized in the income statement over the period of the borrowings on an effective interest basis.

29-10 Provisions

Provisions are recognized when the Group has a legal or constructive current obligation as a result of a past event and it's probable that a flow of economic benefits will be required to settle the obligation. If the effect is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessment of the time value of money and, where appropriate, the risks specific to the liability. Provisions are reviewed at the financial position date and amended (when necessary) to represent the best current estimate.

29-11 Legal reserve

The Company's statutes provides for deduction of a sum equal to 5% of the annual net profit for formation of the legal reserve. Such deduction will be ceased when the total reserve reaches an amount equal to half of the Company's issued capital and when the reserve falls below this limit, it shall be necessary to resume

29-12 Share capital

29-12-1 Ordinary shares

Incremental costs directly attributable to the issue of ordinary shares are recognized as a deduction from equity. Income tax relating to transaction costs of an equity transaction are accounted for in accordance with EAS 24 income tax.

29-12-2 Repurchase and reissue of ordinary shares (treasury shares)

When shares recognized as equity are repurchased, the amount of the consideration paid, which includes directly attributable costs is recognized as a deduction from equity. Repurchased shares are classified as treasury shares and are presented in the treasury share reserve. When treasury shares are sold or reissued subsequently, the amount received is recognized as an increase in equity and the resulting surplus or deficit on the transaction is presented within share premium.

29-13 Derivative financial instruments

The Company uses derivative financial instruments to hedge its exposure to foreign exchange and interest rate risks arising from operational, financial and investment activities. In accordance with its treasury policy, the Group does not hold or issue derivative financial instruments for trading purposes. However, derivatives that do not qualify for hedge accounting are accounted for as trading instruments. Derivatives are recognized initially at fair value; attributable transaction costs are recognized in income statement when incurred. Subsequent to initial recognition, derivatives are measured at fair value, and changes therein are accounted for as described below.

Cash flow hedges

Changes in the fair value of the derivative hedging instrument designated as a cash flow hedge are recognized directly in equity to the extent that the hedge is effective. To the extent that the hedge is ineffective, changes in fair value are recognized in income statement.

If the hedging instrument no longer meets the criteria for hedge accounting, expires or is sold, terminated or exercised, then hedge accounting is discontinued prospectively. The cumulative gain or loss previously recognized in equity remains there until the forecast transaction occurs. When the hedged item is a non-financial asset, the amount recognized in equity is transferred to the carrying amount of the asset when it is recognized. In other cases the amount recognized in equity is transferred to income statement in the same period that the hedged item affects income statement.

Fair value hedges

Changes in the fair value of a derivative hedging instrument designated as a fair value hedge are recognized in profit or loss. The hedged item also is stated at fair value in respect of the risk being hedged, with any gain or loss being recognized in income statement.

29-14 Revenues

29-14-1 Gains (losses) on sale of investments

Gain (loss) resulted from sale of investments are recognized on transaction date and measured by the difference between cost and selling price less selling commission and expenses.

29-14-2 Dividend income

Dividend income is recognized when declared.

29-14-3 Custody fees

Custody fees are recognized when provide service and issue invoice.

29-14-4 Interest income

Interest income is recognized on time proportion basis to take into account effective yield on the asset.

29-15 Expenses

29-15-1 Borrowing costs

Borrowing costs are recognized as expenses in the income statement when incurred on an effective interest basis.

29-15-2 Employees' pension

The Company contributes to the government social insurance system for the benefit of its personnel in accordance with the social insurance law. Under this law, the employees and the employers contribute into the system on a fixed percentage-of-salaries basis. The Company's liability is confined to the amount of its contribution. Contributions are charged to income statement using the accrual basis of accounting.

29-15-3 Income tax

Income tax on the income statement for the year comprises current and deferred tax. Income tax is recognized in the income statement except to the extent that it relates to items recognized directly in equity, in which case it is recognized in equity.

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantially enacted at the financial position date, and any adjustment to tax payable in respect of previous years.

Deferred tax is provided using the financial position liability method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The amount of deferred tax provided is based on the expected manner of realization or settlement of the carrying amount of assets and liabilities, using tax rates enacted or substantively enacted at the financial position date.

A deferred tax asset is recognized only to the extent that it is probable that future taxable profits will be available against which the asset can be utilized. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

29-16 Earnings per share

The Company presents basic earnings per share (EPS) data for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the period, and is presented in the consolidated financial statements.

29-17 Profit sharing to employees

The Company pays 10% of its cash dividends as profit sharing to its employees provided that it will not exceed total employees annual salaries. Profit sharing is recognized as a dividend distribution through equity and as a liability when approved by the Company's shareholders.

30- Initial application of new Egyptian Accounting Standards "EAS"

New versions and amendments on the Egyptian Accounting Standards has been activated as at 1/1/2016:

During 2015, A modified version of the Egyptian Accounting Standards "EAS" was issued, these standards involves some of the new accounting standards and adjustments to be applied for the financial periods that starts after the first of January, 2016 knowing that the early application of these standards is not allowed The most important amendments on the Egyptian Accounting Standards that may have a significant on the financial statements of the company as at 30/9/2016:

New or amended	Summary of the most	Impact on the financial
standards	significant amendments	statements
EAS (1) Presentation of Financial Statements	 Statement Of Financial Position The standard does not require to present the working capital presentation. The reference financial statements that was included in 2006 standards was excluded; which presented the working capital presentation. A column shall be added to the statement of financial position including balances of the beginning of the first presented comparative period in case of retrospective implementation or change in an accounting policy or reclassification carried out by the entity. 	 Re-presenting all the presented financial statements, disclosures and their accompanying notes including the comparative figures to be in conformity with the required amendments to the standard.
	Income Statement / Statement of Comprehensive Income The entity shall disclose all recognized income and expense captions during the financial period in two separate statements; one of them presents the profit or loss components (Income Statement) and the other one starts with the profit or loss and presents the other comprehensive income items (Statement of Comprehensive Income).	• Adding a new statement, <i>Statement of Comprehensiv</i> <i>Income'</i> , for the current and comparative period.

the comparable period.	
• The option of using the revaluation model in the subsequent measurement of PPE has been canceled	The amendment on the standard has no impact on the figures presented in the financial statements.
• The option of using the fair value model in the measurement after recognition of the Property Investment has been canceled.	• The fair value of the investment at the beginning of the implementation of this standard considered as deemed cost of that investment for the purposes
	 and its depreciations in the notes accompanying the financial statements at the beginning and the end of the current period and the comparable period. The option of using the revaluation model in the subsequent measurement of PPE has been canceled The option of using the fair value model in the measurement after recognition of the Property

of the subsequent accounting treatment according to EAS (10) "PPE".

 Revaluation surplus of fixed assets transferred to investment property is recognized in retained earning (loss) on the retirement or disposal of the investment property On 3 November 2016, Central Bank of Egypt floated the Egyptian pound and allowed banks to deal in foreign currencies with flexible rates.

In addition, Central Bank of Egypt raised interest rate for deposits in EGP by approximately 3% to face the rise in prices a currency devaluation may bring.

Accordingly the value of monetary assets and liabilities in subsequent periods may differ substantially from its recorded amounts in the financial statements for the period ended 30 September 2016. In addition it may affect the statement of profit and loss as a result of re-measuring all recorded transactions denominated in foreign currency at the date of the financial position and in subsequent periods.

Coinciding with the exchange rate, also the Central bank of Egypt increased the overnight lending and return on deposits with 300 points to reach 14.75% and 15.75% accordingly.
